INDEPENDENT AUDITOR'S REPORT

Kentucky State Committee for School District Audits
Members of the Board of Education
Wayne County School District
Monticello, Kentucky 42633

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Wayne County School District as of and for the year ended June 30, 2015, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards and the standards generally accepted in the United States of America applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the provisions of Office of Management and Budget circular A-133, "Audits of States, Local Governments and Non-Profit Organizations," and the audit requirements prescribed by the Kentucky State Committee for School District Audits in the Kentucky Public School Districts' Audit Contract and Requirements. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. I believe the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in note A to the financial statements, during the year ended June 30, 2015, the District adopted Governmental Accounting Standards Board Statement 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27. My opinion is not modified with respect to this matter.

Other Matters***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, schedules of District's proportionate share of net pension liabilities and schedules of required contributions on pages 3 through 7 and 45 thru 50 will be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section and combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated November 10, 2015 on my consideration of the District's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Wayne County Public School District-Monticello, Kentucky
Management's Discussion and Analysis (MD & A)
Year ended June 30, 2015

As management of the Wayne County School District, we offer readers of the District's financial statements this narrative overview and analysis of the District for the fiscal year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information found within the body of the audit

Financial Highlights

- The beginning cash balance for the District was \$2,173,872. The year ended with a balance of \$5,130,759. The year-end balance is \$2,956,887 more than the 2013-2014 year-end balance.
- The General Fund had \$25,438,302 in revenue, which primarily consisted of the state program (SEEK), property, utilities and motor vehicle taxes. Excluding interfund transfers and other financing sources, there are \$25,521,187 in General Fund expenditures.
- Bond are issued as the District renovates facilities consistent with a long-range facilities plan that is established with community input and in keeping with Kentucky Department of Education (KED) stringent compliance regulations. The District's total debt reduction on bonds was \$1,955,000. The District's outstanding debt, including KISTA, is \$21,877,291 at the end of fiscal year 2015.
- In 2014-2015, certified and classified staff received a 1% salary increase.
- Construction began on an addition to the Wayne County Middle School in fiscal year 2014-2015. The addition will alleviate overcrowding created by the merger of Wayne County Schools and Monticello Independent School.
- During 2014-2015, the District purchased 8 new buses to replace buses in excess of the state's full depreciation schedule.
- Total enrollment for 2014-2015 for grades K-12 was 3,295, a 22 student decrease from 2013-2014. The overall District attendance rate for 2014-2015 was 94.12, a decrease from 2013-2014 of 94.45.

Overview of Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) governmentwide financial statements, 2) fund financial statements, and 3) notes to the financial statement. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the district is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The maintenance of plant, student transportation and operation of non-instructional services. Fixed assets and related debt are also supported by taxes and intergovernmental revenues.

The government-wide financial statements can be found on pages 8 and 9 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. This is a state mandated uniform system and chart of accounts for all Kentucky public school districts utilizing the MUNIS administration software. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental, proprietary fund and fiduciary funds. Fiduciary funds are trust funds established by benefactors to aid in student education, welfare, and teacher support. The only proprietary funds are food service operations and childcare. All other activities of the district are included in the governmental funds.

The basic governmental fund financial statements can be found on pages 10 and 12 of this report.

Notes to Financial Statements The notes provide additional information that is essential to a full understanding of the data provided in the governmentwide and fund financial statements. The notes to the financial statements can be found on pages 21-33 of this report.

Government-Wide Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$8,077,635 as of June 30, 2015. This reflects a decrease of \$5,972,243 from 2013-2014.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment) less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Net Position for the period ending June 30, 2015

Current Assets	6,261,811
Noncurrent Assets	<u>31,355,703</u>
Total Assets	37,617,514

Current Liabilities	1,127,286
Noncurrent Liabilities	<u>28,412,593</u>
Total Liabilities	29,539,879

Net Position	
Investment in capital assets (net of debt)	9,478,412
Restricted Fund Balance	2,969,644
Unrestricted Fund Balance	<u>(4,370,421)</u>
Total Net Position	<u>\$ 8,077,635</u>

Comments on Budget Comparisons

- The District's total general revenues for the fiscal year ended June 30, 2015, net of interfund transfers, were \$25,445,014.
- General Fund budget compared to actual revenue varied slightly from line item to line item with the exception of revenue code 3900 (on-behalf payments made by the state for employee benefits). On-behalf payments are not included in the budget. The actual revenue received was \$5,976,460 more than budgeted.
- The cost of all programs and services was \$25,275,636 net of debt service.
- General Fund budget expenditures to actual varied overall due to recording on-behalf payments.

General Fund Revenue/Expenditures

The majority of the total General Fund (Fund 1) revenue was derived from state revenue (79.9%). Local funding accounted for (18.1%) of the revenue.

The greatest amount of revenue (55.9%) was expended for instruction. Other significant expenditures were student transportation (10.1%), plant operation and management (9.7%), instructional staff support which includes school libraries and districtwide instructional support staff (6.4%), school administrative support (6.0%), and student support services which includes health services, attendance services and guidance counseling (6.6%).

District Activity Fund Revenue/Expenditures

The District set up an additional annual fund this fiscal year to allow school activity funds to transfer funds to the District bank account. District activity funds are not subject to the Redbook and may be expended with more flexibility. Funds are assigned project numbers (7XXX) to fulfill reporting requirements.

Special Revenue Fund Revenue/Expenditures

The majority (64.9%) of the Special Revenue's (Fund 2) revenue was derived from federal sources with state revenue making up (32.1%). The largest expenditure for the fund was for instruction, which was (69.1%) of the fund's total expenditures. Instructional staff support services was (21.4%) of the total expenditures.

Capital Outlay Fund and Facilities Support Program off Kentucky Revenue/Expenditures

The Capital Outlay Fund's (Fund 310) revenue is received from the state funding program (SEEK). The FSPK Fund (Fund 320) receives revenue from both state funding and local taxes. During this year the majority of these funds were transferred to the debt service fund for paying on bonds sold in previous years for new and renovated facilities. This year the state allowed the district to use a portion of Capital Outlay funds for approved operation expenses that would have been funded through General Fund.

Construction Fund Revenue/Expenditures

The Construction Fund (Fund 360) is used for new buildings and renovations. The District had a bond sale and began a new project for an addition to the Wayne County Middle School.

Debt Service Fund Revenue/Expenditures

The Debt Service Fund (Fund 4000) is used for paying debt service on bonds sold for new and renovated facilities. The fund receives a majority of its revenue from transfers from other funds primarily the Capital Outlay and FSPK Funds.

Food Service Fund Revenue/Expenditures

The School Food Service Fund (Fund 51) is an enterprise fund, which receives revenue from federal (84.1%), state (12%) and local (4%) sources. Expenditures for this fund are for food service staff, food, supplies and equipment.

Childcare Tuition Fund Revenue/ Expenditures

The Childcare Tuition Fund (Fund 52) is an enterprise fund that receives its revenue from daycare fees. The fund's expenditures are for day care staff, supplies and equipment.

Budgetary Implications

In Kentucky the public school fiscal year is July 1-June 30; other programs, i.e. some federal programs operate on a different fiscal calendar, but are reflected in the district overall budget. By law the budget must have a minimum 2% contingency. The district adopted a budget with \$475,000 in contingency (2%). The cash balance for beginning the fiscal year is \$5,130,759.

Questions regarding this report should be directed to Wayne Roberts, Superintendent at (606)348-8484 or to Lisa Pyles, Finance Officer at (606)348-8484 or by mail at 1025 South Main Street, Monticello, Kentucky 42633.

**RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
WITH THE DISTRICT-WIDE STATEMENT OF NET POSITION
June 30, 2015**

AMOUNTS REPORTED FOR GOVERNMENTAL ACTIVITIES IN THE STATEMENT
OF NET POSITION ARE DIFFERENT BECAUSE:

Total governmental fund balance		\$ 4,383,532
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.		
Cost of capital assets	45,278,400	
Accumulated depreciation	<u>(15,503,918)</u>	29,774,482
Long-term liabilities (including bonds payable) are not due and payable in the current period and therefore are not reported as liabilities in the funds.		
Long term liabilities at year end consist of:		
Accrued sick leave	(82,008)	
Bonds and capital leases payable	(21,877,291)	
Interest payable	(104,294)	
Net pension liability - CERS and related inflows / outflows	<u>(6,292,240)</u>	<u>(28,355,833)</u>
Total net position - governmental		<u>\$ 5,802,181</u>

The accompanying notes are an integral part of these statements.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES**

June 30, 2015

Amounts reported for governmental activities in the statement of net position are different because:

Net changes - governmental funds:	\$ 2,688,144
Governmental funds report capital outlays as expenditures because they use current financial resources. However in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeds depreciation expense for the year.	(386,313)
Bond proceeds are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the Statement of Net Position, however, issuing debt increases long-term liabilities and does affect the Statement of Activities. Repayment of principal is an expenditure in the governmental funds but reduces the liability in the Statement of Net Position.	
Principal paid	2,304,582
Bonds issued	(3,210,000)
In the statement of activities the net gain on the sale/disposal of assets is reported whereas in the governmental funds the proceeds from the sale increase financial resources. Thus the change in net position differs from the change in fund balances by the cost of the asset sold/acquired.	<u>(1,180,406)</u>
Changes in net position - governmental funds	<u>\$ 216,007</u>

The accompanying notes are an integral part of these statements.

**WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

REPORTING ENTITY

The Wayne County Board of Education (Board), a five member group, is the level of government which has oversight responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the Wayne County School District (District). The District receives funding from local, state and federal government sources and must comply with the commitment requirements of these funding source entities. However, the Board is not included in any other governmental "reporting entity" as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards, as Board members are elected by the public and have decision-making authority, the power to designate management and the responsibility to develop policies which may influence operations and primary accountability for fiscal matters.

The District, for financial purposes, includes all of the funds and account groups relevant to the operation of the Wayne County School District. The financial statements presented herein do not include funds of groups and organizations which, although associated with the school system, have not originated within the Board itself such as booster organizations, Parent-Teacher Associations, etc.

The financial statements of the District include those of separately administered organizations that are controlled by or dependent on the Board. Control or dependence is determined on the basis of budget adoption, funding and appointment of the respective governing board.

The accounting policies of the Wayne County School District substantially comply with the rules prescribed by the Kentucky Department of Education for local school districts and generally accepted accounting principles prescribed by the Governmental Accounting Standards Board (GASB).

District-Wide and Fund Financial Statements

The statement of net position and the statement of activities are district-wide financial statements. They report information on all of the District's nonfiduciary activities with interfund activities removed. Governmental activities include programs supported primarily by taxes, state funding and allocations and other intergovernmental revenues.

Fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary and fiduciary. Because the resources in the fiduciary funds cannot be used for District operations, they are not included in the district-wide statements.

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Fund Accounting

The District maintains its accounting records in accordance with the principles of "fund" accounting. Fund accounting is a concept developed to meet the needs of governmental entities in which legal or other restraints require the recording of specific receipts and disbursements. The transactions of each fund are reflected in a self-balancing group of accounts which stands separate from the activities reported in other funds. A description along with the restrictions associated with each class of funds are as follows:

I. Governmental Fund Types

- A. The General Fund is the primary operating fund of the District. It accounts for financial resources used for general types of operations. This is a budgeted fund, and any fund balances are considered as resources available for use.
- B. The Special Revenue Fund accounts for proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to disbursements for specified purposes. It includes federal financial programs where unused balance are returned to the grantor at the close of specified project periods as well as the state grant programs. Project accounting is employed to maintain integrity for the various sources of funds. The separate projects of federally funded grant programs are identified in the Schedule of Federal Financial Assistance included in this report.
- C. Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities and equipment (other than those financed by Proprietary Funds).
 - 1. The Support Education Excellence in Kentucky (SEEK) Capital Outlay Fund receives those funds designated by the state as Capital Outlay Funds (unless authorized for retention in the General Fund) and is restricted for use in financing projects identified in the district's facility plan.
 - 2. The Facility Support Program of Kentucky (FSPK) Fund accounts for funds generated by the building tax levy required to participate in the Kentucky School Facilities Construction Commission's funding and state matching funds, where applicable. Funds may be used for projects identified in the district's facility plan.
 - 3. The Construction Fund accounts for proceeds from sales of bonds and other revenues to be used for authorized construction.

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

II. Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest and related costs and for the payment of interest on general obligation notes payable, as required by Kentucky Law.

III. Proprietary Funds (Enterprise Fund)

The School Food Service Fund is used to account for school food service activities, including the National School Lunch and Breakfast Programs, which are conducted in cooperation with the U.S. Department of Agriculture (USDA). Amounts for in-kind contribution of commodities from the USDA are recorded only in the proprietary Statement of Revenues, Expenses, and Changes in Fund Balance.

IV. Fiduciary Fund Type

The Activity Fund consists of Agency funds and accounts for activities of student groups and other types of activities requiring clearing accounts. With the exception of Cardinal Bank these funds are accounted for in accordance with Uniform Program of Accounting for School Activity Funds. The Cardinal Bank operates a school bank for the benefit of students and the nature of its operations are not conducive to some of the requirements of Uniform Program of Accounting for School Activity Funds.

V. Property Taxes

The District's property taxes are levied each October on the assessed value listed as of the prior January 1 for all real and personal property located in the District. Property taxes attached as an enforceable lien on the property at May 31. Tax rates assessed were 42.9 and 42.9 cents, respectively, per one hundred dollars of assessed value.

Property taxes collected are deposited into the General Fund, then transferred and recorded as revenues in the fund for which they were levied.

Utilities Taxes

The District levies a utility gross receipts license tax in the amount of 3% of the gross receipts derived from the furnishing, within the county, of telephone, cable television, electricity and water services.

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Budgetary Process

Budgetary Basis of Accounting: The District's budgetary process accounts for certain transactions on a basis other than GAAP. During the budgetary process, revenues are projected in cash amounts to be received and expenditures are projected in cash amounts to be paid. Under GAAP, revenues and expenditures are recorded when susceptible to accrual.

Once the budget is approved, it can be amended. Amendments aggregating more than \$50,000 are presented to the Board for their approval at their regular meetings. Each budget is prepared and controlled by the budget coordinator at the revenue and expenditure function/object level. All budget appropriations lapse at year end.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The district-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary and fiduciary funds. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Cash and Cash Equivalents

The Board considers demand deposits, money market funds, and other investments with an original maturity of 90 days or less to be cash equivalents.

Inventories

Supplies and materials are charged to expenditures when purchased, with the exception of the Proprietary Funds which record inventory using the accrual basis of accounting. Food service fund inventories are stated at cost.

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

Investments

Investments are stated at fair value at the balance sheet date. The District has investments in Fixed Income Money Market Funds, which are restricted for repayment of a QZAB upon bond maturity and may not be used for any other purpose.

Encumbrances

Encumbrances are reported as a reservation of the fund balance. They are not reported as disbursements until paid.

Accumulated Unpaid Sick Leave Benefits

Upon retirement from the school system, a certified employee will receive from the District an amount equal to 30% of the value of accumulated sick leave. Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the District's past experience of making termination payments.

The current portion of unpaid accrued sick leave is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "accumulated sick leave payable" in the general fund. The noncurrent portion of the liability is recorded as a long term liability.

Fund Balance Reserves

Restricted fund balances arise when constraints placed on the use of resources are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. At June 30, 2015 the District had \$226,221 restricted as debt service in Debt Service Fund, \$82,008 as restricted for sick leave in the General Fund, \$30,118 restricted for inventories in the Food Service Fund and \$2,631,297 as restricted for capital projects in the Capital Outlay and Construction Funds.

Committed fund balances are those amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Board of Education. The Board of Education must approve by majority vote the establishment (and modification or rescinding) of a fund balance commitment. The District had \$19,898 committed fund balances in the Special Revenue District Activity Fund at June 30, 2015.

Assigned fund balances are those amounts that are considered by the government's intent to be used for specific purposes, but are neither restricted nor committed. The Board of Education allows program supervisors to complete purchase orders which result in the encumbrance of funds. The amount assigned related to the encumbrances at June 30, 2015 was \$0.

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund. The District has \$1,424,108 in unassigned fund balance at June 30, 2015.

Estimates

Preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

On-Behalf Payments

The District receives on-behalf payments from the State of Kentucky for items including retirement and insurance. The amounts received for the fiscal year ended June 30, 2015 was \$7,042,990. These payments were recorded as follows:

General Fund	\$5,566,010
Debt Service	1,144,755
Food Service Fund	307,916
Day Care Operations Fund	<u>24,309</u>
Total	\$7,042,990

Changes in Accounting Principle

Effective July 1, 2014, the District was required to adopt Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions" (GASB 68). GASB 68 replaced the requirements of GASB 27, "Accounting for Pensions by State and Local Governmental Employers" and GASB 50 "Pension Disclosures", as they relate to government pensions through pension plans administered as trusts or similar arrangements that meet certain criteria. GASB 68 requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability to more comprehensively and comparably measure the annual costs of pension benefits. Cost-sharing governmental employers, such as the District, are required to report a net pension liability, pension expense and pension-related assets and liabilities based on their proportionate share of the collective amounts for all governments in the plan. GASB 68 required retrospective application. Since the District only presents on year of financial information, the beginning net pension was adjusted to reflect the retrospective application. See Note M.

NOTE B - CASH AND CASH EQUIVALENTS

At year end, the carrying amount of the District's cash and cash equivalents was \$5,432,530. Carrying amounts do not reflect deposits in transit or outstanding checks. Of the total cash balance, \$500,000 was covered by Federal Depository Insurance, with the remainder covered by collateral held by the pledging banks' trust departments in the District's name. At June 30, 2015 all deposits were fully collateralized.

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

Cash and cash equivalents at June 30, 2015 exclusive of activity and debt service funds, consisted of the following (after deposits in transit and outstanding checks):

Governmental funds	\$1,229,821
Proprietary fund	\$ 718,775

NOTE C - BONDED DEBT AND LEASE OBLIGATIONS

The amount shown in the accompanying financial statements as lease obligations represents the District's future obligations to make lease payments relating to the bonds issued by the Wayne County School District and the Kentucky School Facilities Construction Commission.

The District, through the General Fund, including utility taxes and the SEEK Capital Outlay Fund, is obligated to make lease payments in amounts sufficient to satisfy debt service requirements on bonds issued by the Wayne County School District Finance Corporation and the Kentucky School Facilities Construction Commission to construct school facilities. The District has an option to purchase the property under lease at any time by retiring the bonds then outstanding.

The District has entered into "participation agreements" with the School Facility Construction Commission. The Commission was created by Kentucky General Assembly for the purpose of assisting local school districts in meeting school construction needs. The table on the following page sets forth the amount to be paid by the district and the Commission for each year until maturity of all bond issues.

At June 30, 2015 total indebtedness, including both principle and interest, amounted to \$24,277,441. This is detailed below and on the following page.

Capital Lease Payable

Presented below is the schedule of lease payments (principal and interest) due by the District to KISTA for purchase of transportation vehicles:

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

NOTE D – RETIREMENT PLANS

Kentucky Teacher's Retirement

The District's employees are provided with two pension plans, based on each position's college degree requirement. The County Employees Retirement System (CERS) covers employees whose position does not require a college degree or teaching certification. The Kentucky Teachers Retirement System (KTRS) covers positions requiring teaching certification or otherwise requiring a college degree.

General Information About the County Employees Retirement System (CERS)

Plan description – Employees whose positions do not require beyond a high school diploma are covered by the CERS, a cost-sharing multiple-employer defined benefit pension plan administered by the Kentucky Retirement System, an agency of the Commonwealth of Kentucky. Under the provision of the Kentucky Revised Statute (KRS) Section 61.645, the Board of Trustees of the Kentucky Retirement administers CERS and has authority to establish and amend benefit provisions. The Kentucky Retirement System issues a publicly available financial report that included financial statements and required supplementary information for CERS. That report may be obtained from <http://kyret.ky.gov>.

Benefits provided – CERS provides retirement, health insurance, death and disability benefits to Plan employees and beneficiaries. Employees are vested in the plan after five years' service. For retirement purposes, employees are grouped into three tiers, based on hire date:

Tier 1	Participation date	Before September 1, 2008
	Unreduced retirement	27 years service or 65 year old
	Reduced retirement	At least 5 years of service and 55 years old At least 25 years of service and any age
Tier 2	Participation date	September 1, 2008 – December 31, 2013
	Unreduced retirement	At least 5 years service and 65 years old Or age 57+ and sum of service years plus age = 87
	Reduced retirement	At least 10 years service and 60 years old
Tier 3	Participation date	After December 31, 2013
	Unreduced retirement	At least 5 years service and 65 years old Or age 57+ and sum of service years plus age = 87
	Reduced retirement	Not available

Cost of living adjustments are provided at the discretion of the Kentucky General Assembly. Retirement is based on a factor of the number of years of service and hire date multiplied by the average of the highest five years earnings. Reduced benefits are based on factors of both of these components. Participating employees become eligible to receive the health insurance benefit after at least 180 months

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

of service. Death benefits are provided for both death after retirement and death prior to retirement. Death benefits after retirement are \$5,000 in lump sum. Five years of service is required for death benefits prior to retirement and the employees must have suffered a duty-related death. The decedent's beneficiary will receive the higher of the normal death benefit and \$10,000 plus 25% of the decedent's monthly final rate of pay, and any dependent child will receive 10% of the decedent's monthly final rate of pay up to 40% for all dependent children. Five year of service is required for nonservice-related disability benefits.

Contributions – Required contributions by the employee are based on the tier:

	<u>Required Contribution</u>
Tier 1	5%
Tier 2	5% + 1% for insurance
Tier 3	5% + 1% for insurance

The District matches at a rate of 17.76% of the employee's total covered compensation. The District's matching contributions total \$765,760 for the year ended June 30, 2015.

General Information about the Teachers' Retirement System of the Commonwealth of Kentucky (KTRS)

Plan description – The District's teaching certified employees and other employees whose positions require at least a college degree are provided pensions through KTRS – a cost-sharing multiple-employer defined benefit pension plan with a special funding situation established to provide retirement annuity plan coverage for local school districts and other public educational agencies in the Commonwealth of Kentucky. KTRS was created by the 1938 General Assembly and is governed by Chapter 161 Section 220 through Chapter 161 Section 990 of the Kentucky Revised Statutes (KRS). KTRS is a blended component unit of the Commonwealth of Kentucky and therefore is included in the Commonwealth's financial statements. KTRS issues a publicly available financial report that can be obtained at http://www.ktrs.ky.gov/05_publications/index.htm.

Benefits provided – For employees who have established an account in a retirement system administered by the Commonwealth prior to July 1, 2008, employees become vested when they complete five (5) years of credited service. To qualify for monthly retirement benefits, payable for life, employees must either:

- 1) Attain age fifty-five (55) and complete five (5) years of Kentucky service, or
- 2) Complete 27 years of Kentucky service.

Employees that retire before age 60 with less than 27 years of service receive reduced retirement benefits. Non-university employees with an account established prior to July 1, 2002 receive monthly payments equal to 2% (service prior to July 1, 1983) and 2.5% (service after July 1, 1983) of their final average salaries for each year of credited service. New employees (including second retirement accounts) after

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

July 1, 2002 will receive monthly benefits equal to 2% of their final average salary for each year of service if, upon retirement, their total service is less than ten years. New employees after July 1, 2002 who retire with ten or more years of total service will receive monthly benefits equal to 2.5% of their final average salary for each year of service, including the first ten years. In addition, employees who retire July 1, 2004 and later with more than 30 years of service will have their multiplier increased for all years over 30 from 2.5% to 3% to be used in their benefit calculation. Effective July 1, 2008, the system has been amended to change the benefit structure for employees hired on or after that date.

Final average salary is defined as the member's five highest annual salaries for those with less than 27 years service. Employees at least age 55 with 27 or more years of service may use their three highest annual salaries to compute the final average salary. KTRS also provides disability for vested employees at the rate of 60% of the final average salary. A life insurance benefit, payable upon the death of a member, is \$2,000 for active contributing employees, and \$5,000 for retired or disabled employees.

Cost of living increases are 1.5% annually. Additional ad hoc increases and any other benefit amendments must be authorized by the General Assembly.

Contributions- Contribution rates are established by KRS. Non-university members are required to contribute 12.105% of their salaries to the System. The Commonwealth of Kentucky, as a non-employer contributing entity, pays matching contributions of the amount 13.105% of salaries for local school district employees hired before July 1, 2008 and 14.105% for those hired after July 1, 2008. For local school district members whose salaries are federally funded, the employer contributes 15.355% of salaries. If an employee leaves covered employment before accumulating five (5) years of credited service, accumulated employee pension contributions plus interest are refunded to the employee upon the member's request.

Medical Insurance Plan

Plan description- In addition to the pension benefits described above, Kentucky Revised Statue 161.675 requires KTRS to provide post-retirement healthcare to eligible members and dependents. The KTRS Medical Insurance benefit is a cost-sharing multiple employer defined benefit plan. Changes made to the medical plan may be made by the KTRS Board of Trustees, the Kentucky Department of Employee Insurance and the General Assembly.

To be eligible for medical benefits, the member must have retired either for service or disability. The KTRS Medical Insurance Fund offers coverage to members under the age of 65 through the Kentucky Employees Health Plan administered by the Kentucky Department of Employee Insurance. Once retired members and eligible spouses attain age 65 and are Medicare eligible, coverage is obtained through the KTRS Medicare Eligible Health Plan.

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

Funding Policy – In order to fund the post-retirement healthcare benefit, six percent (6.0%) of the gross annual payroll of members before July 1, 2008 is contributed. Three percent (3.0%) is paid by member contributions and three quarter percent (.75%) from state appropriation and two and one-quarter percent (2.25%) from the employer. Also, the premiums collected from retirees as described in the plan description and investment interest help meet the medical expenses of the plan.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the Wayne County School District reported a liability for its proportionate share of the net pension liability for CERS. The District did not report a liability for the District's proportionate share of the net pension liability for KTRS because the Commonwealth of Kentucky provides the pension support directly to KTRS on behalf of the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the CERS net pension liability	<u>\$ 6,349,000</u>
State's proportionate share of the net pension liability associated with the District	<u>\$89,117,305</u>

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the actual liability of the employees and former employees relative to the total liability of the System as determined by the actuary. At June 30, 2014, the District's portion was .195683 percent.

For the year ended June 30, 2015 the District recognized pension expense of \$508,000 related to CERS.

The District reported approximate deferred outflows of resources and deferred inflows of resources related to pension expense from the following sources:

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ -	\$ -
Changes of assumptions	-	-
Net difference between projected and actual earning on pension plan investments	-	709,000
Changes in proportion and differences between District Contributions and proportionate share of contributions	-	-
District contributions subsequent to the measurement date	<u>765,760</u>	<u>-</u>
Total	<u>\$ 765,760</u>	<u>\$ 709,000</u>

\$765,760 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows related to pensions will be recognized in pension expense as follows (\$709,000/5):

Year ended June 30:

2016	141,800
2017	141,800
2018	141,800
2019	141,800
2020	141,800

Actuarial assumptions – The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	<u>CERS</u>	<u>KTRS</u>
Inflation	3.50%	3.50%
Projected salary increases	4.50%	4.0-8.2%
Investment rate of return, net of investment expense & inflation	7.75%	7.50%

For CERS, mortality rates for the period after service retirement are according to the 1983 Group Annuity Mortality Table for all retired employees and beneficiaries as of June 30, 2006, and the 1994 Group Annuity Mortality Table for all other employees. The Group Annuity Mortality Table set forward five years is used for the period after disability retirement.

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

For KTRS, mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2020 with a setback of one year for females. The last experience study was performed in 2011, and the next experience study is scheduled to be conducted in 2016.

For CERS, the long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years. The most recent analysis, performed for the period covering fiscal years 2005 through 2008, is outlined in a report dated August 25, 2009. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a ten year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

For KTRS, the long-term expected rate of return on pension plan investments was determined using a long-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class, as provided by KTRS's investment consultant, are summarized in the following table:

	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Equity	45.0%	6.4%
Non U. S. Equity	17.0%	6.5%
Fixed Income	24.0%	1.6%
High Yield Bonds	4.0%	3.1%
Real Estate	4.0%	5.8%
Alternatives	4.0%	6.8%
Cash	<u>2.0%</u>	1.5%
Total	<u>100.%</u>	

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

Discount rate – For CERS, the discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan employees and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment return of 7.75%. The long-term investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

For KTRS, the discount rate used to measure the total pension liability was 5.23%. The projection of cash flows used to determine the discount rate assumed that plan member contribution rates, and the employer contributions will be made at statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan employees until the 2036 plan year. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments through 2035, and a municipal bond index rate of 4.35% was applied to all periods of projected benefit payments after 2035. The Single Equivalent Interest Rate that discounts the entire projected benefit stream to the same amount as the sum of the present values of the two separate benefit payments streams was used to determine the total pension liability.

Sensitivity of CERS and KTRS proportionate share of net pension liability to changes in the discount rate – The following table presents the District's net pension liability calculated using the discount rates selected by each pension system, as well as what the District's net pension liability would be if it were calculated using a discount rate that is one percentage point lower, or one percentage point higher than the current rate:

	<u>1% Decrease</u>	<u>Current Discount Rate</u>	<u>1% Increase</u>
CERS	6.75%	7.75%	8.75%
District's proportionate share of net pension liability	5,529,774	6,349,000	7,168,226
KTRS	4.23%	5.23%	6.23%
District's proportionate share of net pension liability	-	-	-

Pension plan fiduciary net positions – Detailed information about the pension plan's fiduciary net position is available in the separately issued financial reports of both CERS and KTRS.

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

NOTE E - CONTINGENCIES

The District receives funding from Federal, State and Local government agencies and private contributions. These funds are to be used for designated purposes only. For government agency grants, if based on the grantors' review the funds are considered not to have been used for the intended purpose, the grantors may request a refund of monies advanced, or refuse to reimburse the District for its disbursements. The amount of such future refunds and unreimbursed disbursements, if any, is not expected to be significant. Continuation of the District's grant programs is predicated upon the grantors' satisfaction that the funds provided are being spent as intended and the grantors' intent to continue their programs.

NOTE F - INSURANCE AND RELATED ACTIVITIES

The District is exposed to various forms of loss of assets associated with the risks of fire, theft, vehicular accidents, errors and omissions, fiduciary responsibility, etc. Each of these risk areas are covered through the purchase of commercial insurance. The District has purchased certain policies which are retrospectively rated, including worker's compensation insurance.

NOTE G - LUNCHROOM ACCOUNT/COMMODITIES

The Lunchroom Account keeps a current monthly inventory of the school in the Food Service Director's office at the Wayne County Board of Education. The Food Service Director has filed timely all required reports and requests for reimbursement.

NOTE H - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions, injuries to employees; and natural disasters. To obtain insurance for workers compensation, errors and omissions, and general liability coverage, the District participates in the Kentucky School Boards Insurance Trust Liability Insurance Fund. These public entity risk pools operate as common risk management and insurance programs for all school district and other tax supported educational agencies of Kentucky who are members of the Kentucky School Boards Association. The District pay an annual premium to each fund for coverage.

Contributions to the Workers Compensation Fund are based on premium rates established by such fund in conjunction with the excess insurance carrier, subject to claims experience modifications and a group discount amount. Dividends may be declared, but are not payable until twenty-four months after the expiration of the self-insurance term.

The Liability Insurance Fund pays insurance premiums of the participating members established by the insurance carrier. The Trust can't terminate coverage if it is unable to obtain acceptable excess general liability coverage, any amounts remaining in the Fund (after payment of the operational and administrative costs and claims for which coverage was provided) would be returned to the members on a pro rata basis.

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

The District purchases unemployment insurance through the Kentucky School Boards Insurance Trust Unemployment Compensation Fund; however, risk has not been transferred to such fund. In addition, the District continues to carry commercial insurance for all other risks of loss.

NOTE I - DEFICIT OPERATING/FUND BALANCES

There are currently no funds that have a deficit fund balance; however, the following fund had operation that resulted in a current deficit of expenditures over revenues, resulting in a corresponding reduction of fund balances:

Capital Outlay	\$	(51,282)
----------------	----	----------

NOTE J - KSBIT ASSESSMENT

On January 14, 2013, officials for the Kentucky School Board Insurance Trust (KSBIT) announced the dissolution of the trust, and publicly announced for the first time that the trust, over a long period of time, had accumulated a deficit of 50 to 60 million dollars. It was confirmed in 2014 that any school district which was a policy holder in the workers compensation pool from 1990 to 2011, and any district which was a policy holder in the property and general liability pool from 1993 to 2011, are subject to assessment. The formula for assessment is based upon a school district's length of service in KSBIT, the premiums paid, and the number of claims made that were attributable to the school district. The Wayne County School District's portion of the assessment for the Workers Compensation Fund is \$530,452 while their portion of Property & Liability Fund is \$88,499 for a total assessment for the district of \$618,951. A portion of the assessment was paid in August 2014 with the remainder payable in various amounts over the next six years. \$91,223 was paid in July 2015 and is included in Accounts Payable in the district's June 30, 2015 financial statements.

NOTE L - CAPITAL ASSETS

All capital assets are capitalized at cost (or estimated historical cost) and updated for additional and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of five thousand dollars. The District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset life, are not.

Capital asset activity for the year ended June 30, 2015 is detailed on the following page.

WAYNE COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS, continued
JUNE 30, 2015

NOTE M - CHANGE IN ACCOUNTING PRINCIPLE

Effective July 1, 2014, the District was required to adopt Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions" (GASB 68). GASB 68 replaced the requirements of GASB 27, "Accounting for Pensions by State and Local Governmental Employers" and GASB 50, "Pension Disclosures", as they relate to governments that provide pensions through pension plans administers as trusts or similar arrangements that meet certain criteria. GASB 68 requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability to more comprehensively and comparably measure the annual costs of pension benefits. Cost-sharing governmental employers, such as the District, are required to report a net pension liability, pension expense and pension related assets and liabilities based on their proportionate share of the collective amount for governments in the plan.

GASB 68 requires retrospective application. Since the District only presents one year of financial information, the beginning net pension was adjusted to reflect the retrospective application. The adjustment resulted in \$6,292,240 reduction in beginning net position on the Statement of Activities and an increase of \$765,760 of deferred outflows of resources - District contribution subsequent to the measurement date.

Net Position, July 1, 2014 as previously reported	\$11,878,414
Deferred outflows of resources related to pensions	765,760
Deferred inflows of resources related to pensions	(709,000)
Net pension liability on June 30, 2014	<u>(6,349,000)</u>
 Net position, July 1, 2014 as restated	 <u>\$ 5,586,174</u>

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING
STANDARDS**

Kentucky State Committee for School District Audits
Members of the Board of Education
Wayne County School District
Monticello, Kentucky 42633

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and in accordance with *Audits of States, Local Governments, and Non-Profit Organizations, Kentucky State Committee for School District Audits Kentucky Public School Districts' Audit Contract Requirements*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Wayne County School District as of and for the year ended June 30, 2015, which collectively comprise the District's basic financial statements and have issued my report thereon dated November 10, 2015.

Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, I do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant defiance* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. In addition, the results of my tests disclosed no instances of material noncompliance of specific state statutes or regulations identified in *Kentucky State Committee for School Districts Audits Kentucky Public School Districts' Audit Contract Requirements*. There were additional matters communicated to the auditee in the management letter.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN
ACCORDANCE WITH OMB CIRCULAR A-133**

Kentucky State Committee for School District Audits
Members of the Board of Education
Wayne County School District
Monticello, KY 42633

Compliance

I have audited the Wayne County School District's compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2015. The District's major federal programs are identified in the summary of auditor's results section on the accompanying schedule of findings and questioned cost.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, and contract and grants applicable to its federal programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of the District's major federal programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and *Kentucky State Committee for School District Audits Kentucky Public School Districts' Audit Contract Requirements*. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In my opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered the District's internal control over compliance with types of requirements that could have a direct and material effect on a major federal program in order to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing my opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness and the District's internal control over compliance.

A deficiency in internal control over compliance exist when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designated to identify all deficiencies in internal control over compliance that might be material weakness or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

**WAYNE COUNTY SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
for the year ended June 30, 2015**

SUMMARY OF AUDITOR'S RESULTS

1. The auditor's report expresses an unmodified opinion on the financial statements of Wayne County School District.
2. Significant deficiencies or material weaknesses disclosed – none reported.
3. There are no questioned costs reported in the audit of the financial statements.
4. Instances of noncompliance material to the financial statements of Wayne County School District, which would be required to be reported in accordance with *Government Auditing Standards* – none reported. Findings required to be reported under Section 510(a) of Circular A-133 – none reported.
5. The auditor's report on compliance for the major federal award programs for Wayne County School District expresses an unmodified opinion on all major federal programs.
6. Wayne County School District is as a low-risk auditee.
7. Major programs included: 21st Century (CFDA #84.287), Gear Up (CFDA #84.334A) and USDA School Lunch Program (CFDA #10.555)
8. The threshold for distinguishing Type A and Type B programs was \$300,000.

CURRENT YEAR FINDINGS RELATED TO FINANCIAL STATEMENTS

None

CURRENT FINDINGS AND QUESTIONED COST RELATED TO FEDERAL AWARDS

None

**WAYNE COUNTY SCHOOL DISTRICT
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
June 30, 2015**

There are no prior audit findings.

MANAGEMENT LETTER

Superintendent and Members of the Board of Education
Wayne County School District
Monticello, Kentucky 42633

In planning and performing my audit of the financial statements of Wayne County School District for the year ended June 30, 2015, I considered the District's internal control in order to determine my auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control.

However, during my audit, I became aware of some matters that are opportunities to strengthen internal controls and operate in a more efficient manner.

PRIOR YEAR UNCORRECTED CONDITIONS

Condition 1:

Statement of Condition: There were several instances where the Purchase Order date was after the vendor receipt date in several of the activity funds and in one activity fund Purchase Orders were used inconsistently and many were without an approval signature.

Criteria for Condition: A Purchase Order (Form F-SA-7) should always be used to initiate a purchase, including for independent contractors and reimbursements to district employees. The purchase order shall be prepared and approved by the sponsor and principal before the payment is obligated. The purchase order is filed with the school treasurer after the order is placed.

Cause of the Condition: Some purchases are being made without getting approval and a Purchase Order is being completed.

Effect of the Condition: Activity fund monies are susceptible to misuse without a proper approval process in place.

Recommendation: Complete and approve a Purchase Order (Form F-SA-7) as described in the criteria above before a purchase is initiated.

Comment: Management will comply in the future.

Condition 2:

Statement of Condition: The Principal's Combining Budget was completed late in two of the activity funds.

Criteria for Condition: The principal shall prepare the Principal's Combining Budget (Form F-SA-3) which is due to the district finance officer by May 15.

Cause of the Condition: The budget was prepared and approved after the May 15th deadline.

Effect of the Condition: Without a budget in place, there is no guideline for the school on what monies to have coming in and going out.

Recommendation: Prepare and approve a budget and turn in to the district finance officer by May 15th before the new school year begins.

Comment: Management will comply in the future.

Condition 3

Statement of Condition: Multiple Receipt Forms are not always used when they should be in the activity funds and many times when they are, they are not filled out correctly (signed by student) and cannot be traced to a receipt.

Criteria for Condition: Teachers, sponsors, or student shall use the Multiple Receipt Form (Form F-SA-6) when collecting money. Student third grade and above must sign the Multiple Receipt Form. A copy of the Multiple Receipt Form shall be retained by the teacher or sponsor and the original shall be given to the school treasurer.

Cause of the Condition: Multiple Receipt Forms are not always being used properly.

Effect of the Condition: Without the proper use of Multiple Receipt Forms, it is difficult to prove whom paid money to the school and how much was collected.

Recommendations: Always complete Multiple Receipt Forms for monies collected from students. Take the Multiple Receipt Form and the money to the school treasurer. The school treasurer should confirm the amount collected on the Multiple Receipt Form, write and issue a receipt and deposit in the bank.

Comment: Management will comply in the future.

Condition 4

Statement of Condition: Fundraiser Approval forms and Worksheets are not always being used when a fundraiser is held in several of the activity funds.

Criteria for Condition: The local board shall approve all school-wide fundraisers, including the proposed use of funds. The Fundraiser Approval (Form F-SA-2A) shall be completed before the fundraiser begins. The principal shall approve all other fundraisers in the school including the proposed use of funds. The same Fundraiser Approval (Form F-SA-2A) shall be completed before the fundraiser begins. Fundraisers where items are sold require the use of the Fundraiser Worksheet (Form F-SA-2B), which is used to recap the profitability of a fundraiser sales cycle. The activity fund sponsor shall complete the Fundraiser Worksheet (Form F-SA-2B) and forward the report to the principal for review and filing within one week of the completion of the fundraising period or event.

Cause of the Condition: Failure to properly complete and turn Fundraiser Approval forms and Fundraiser worksheets for all fundraisers held.

Effect of the Condition: Without knowledge and accountability for each fundraiser, fundraiser monies collected for the benefit of the school are more susceptible to theft and / or misuse.

Recommendation: The sponsor of the fundraiser shall complete the Fundraiser Approval form and get it signed and approved by the principle. After completion of the fundraiser, the sponsor shall complete the Fundraiser Worksheet, which shows all monies receipted and expended for the fundraiser, to the principal within one week of the completion of the fundraising period or event.

Comment: Management will try harder to comply in the future but often times find it difficult to get the sponsors to complete and turn in the required reports.

Condition 5

Statement of Condition: Several of the Booster Clubs and or PTO's did not submit a Budget, insurance papers and did not submit any form of financial reporting (i.e. Financial or bank statements) to the school treasurer at two of the activity funds.

Criteria for Condition: Each external support/booster organization must submit an annual External Support/Booster Organization Budget Worksheet (Form F-SA-4B) to the principal within the first thirty days of the school year or within thirty days of the first transaction of the group and must submit an annual financial report for the fiscal year ending June 30 to the principal by July 15. All external support/booster organizations are required to carry separate insurance for general liability with the appropriate coverage to operate their organization and proof of this insurance coverage must be submitted to the principal prior to commencing any fundraising activities.

Cause of the Condition: School treasurers state that it is very difficult to get these outside organizations to submit the required documentation to them.

Effect of the Condition: Without knowledge and accountability for each outside organization, monies collected for the benefit of the school are more susceptible to theft and / or misuse.

Recommendation: The person in charge of the outside organization shall submit all required documentation in a timely manner to the school treasurer.

Comment: Management will try to obtain this information in the future but finds it very difficult in some cases.

I have reported on the Districts internal control structure in my report dated November 10, 2015. This letter does not affect my report dated November 10, 2015 on the financial statements of Wayne County School District.

I will review the status of these comments during my next audit engagement. I have already discussed these comments and suggestion with District personnel, and will be pleased to discuss them in further detail at your convenience, to perform an additional study of this matter, or assist the District with implementation of recommendation.

This report is intended solely for the information and use of the Board, management, Kentucky Department of Education, Kentucky State Committee for School Districts Audits, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,

Barry D. Daulton, CPA, PSC
